Cookies Policy

1. COOKIES DESCRIPTION:

A "Cookie" is a small text file that a website stores in the user's browser, facilitating navigation through a website. Cookies are essential for the functioning of the Internet.

Cookies are used, for example, to remember the tastes of the users on the web: language, browser used; analyzing the habits and behaviors of the user to improve the services offered, or to adapt the contents of a website to the preferences of the user.

Cookies can be categorized as follows:

Regarding the entity which manages it (Owner):
- Own cookies: Are those that are sent to your computer from our computers or domains and from which we provide the requested service.
- Third party cookies: Are those that are sent to your computer from a computer or domain that is not managed by us, but by another collaborating entity. For example, those used by social networks, or external content such as videos stored on Youtube.

Depending on the length of time they remain activated (Duration):
- Session Cookies: These are temporary cookies that remain in the cookie file of your browser until you leave the web page, so none remains registered in the local memory of your device. The information obtained through these cookies serves to analyze traffic patterns on the web. Ultimately, this allows us to provide a better experience to improve the content and facilitate its use.
- Persistent cookies: These are stored in the local memory of your device and our web reads them every time you visit our pages. A permanent website has a specific expiration date. The cookie will stop working after that date. These cookies are generally used to facilitate purchase and registration services.

Regarding its purpose (Purpose):
- Technical Cookies: Are those necessary for navigation and the proper functioning of our website. They allow, for example, to control the traffic and data communication, to access restricted access parts, to carry out the process of placing an order, to use security features, store contents to be able to broadcast videos or share contents through social networks.
- Personalization Cookies: These are the ones that allow you to access the service with predefined characteristics based on a series of criteria, such as the language, the type of browser through which the service is accessed, the regional settings from where the service is accessed, etc.
- Analysis cookies: These are the ones that allow us to quantify the number of users and thus carry out the measurement and statistical analysis of the use that users make of the services provided. For this, we analyze the user's navigation pattern on our website in order to improve products and services that we offer.
- Advertising Cookies: These are the ones that allow the management of advertising spaces that could be included in our website, in the most efficient way possible.
- Behavioral Advertising Cookies: These cookies store users' behavior information obtained through continuous observation. Thanks to them, we can know the habits of navigation on the internet and show advertising related to your browsing profile.

2. WHAT COOKIES DO WE USE AND WITH WHICH PURPOSES:

Our website uses the following types of cookies:
